The Schlage® ALX Series cylindrical lock

The proven AL Series has evolved

As a Grade 2 lock, the AL Series has always offered a combination of strength and durability alongside Schlage trusted key system options at a price point favorable to any application. Though these qualities remain, the lock has changed. ALX Series' features now deliver flexibility and value beyond strength and security. X Factor qualities, born from modular design, define a lock that exceeds expectations. AL Series' evolution to the ALX Series is a revolution in lock design.

Why modular design is important

The Schlage ALX Series gives you the ability to use it as you would any other lock: ordered and delivered as a complete, configured product ready for installation. However, in its new modular design, ALX Series offers you the flexibility to utilize the separate components of chassis, function and lever packaged kits to create a lock to meet your needs on demand. So whether you are a distributor wanting to offer same day pickup on configured locks in uncommon levers and finishes, a locksmith wanting truck stock solutions that eliminate call backs, or a facility manager wanting to repurpose rooms and change lock functions without the expense of new hardware, ALX Series can work for you.

Installing

Innovation that works for you

Walter Schlage invented the cylindrical lock in 1920. Since then, the Schlage brand has consistently delivered innovation and continuous improvement with trusted lock products that last. In that tradition, we are extremely proud to introduce a new way of thinking about what a cylindrical lock can do for your business or facility. The humble cylindrical lock is now modular and flexible in a way that makes it easier than ever to problem solve security and functional needs on the spot. ALX Series is an innovation made to exceed your expectations.

Allegion brings you a complete infrastructure of support throughout the entire build and ownership process

Allegion provides comprehensive support from our sales offices including consultations, master key development and training; industry and code training, specification writing, and product service. And because Schlage products are part of Allegion brands, they are made to suite with Von Duprin® exit devices, LCN® door closers, and Steelcraft® doors and frames. For tools and support, go online to learn how Allegion can help you be more productive, simplify your ordering process, eliminate installation errors and gain sales support.

Specifications

The X Factor

Qualities defining a lock designed to exceed expectations

The Schlage ALX Series is a grade 2 lock unlike any other. As a modular lock, it features a single, patent pending chassis design that supports most functions and all cylinder applications. The lock's ability to be configured on site to meet the functional need let's you avoid problems. You can do more with less, giving you an unprecedented level of flexibility to every aspect of how you use it in your business.

Extreme installation simplicity
- Accommodates 1 $^3/_8$" to 1 $^3/_4$" door thickness with minimal chassis adjustment
- Captured screws in latch, strike and inside spring cage eliminate small, loose parts

Expansive lever offering
Perfectly suites with ND Series levers to offer 10 total lever designs
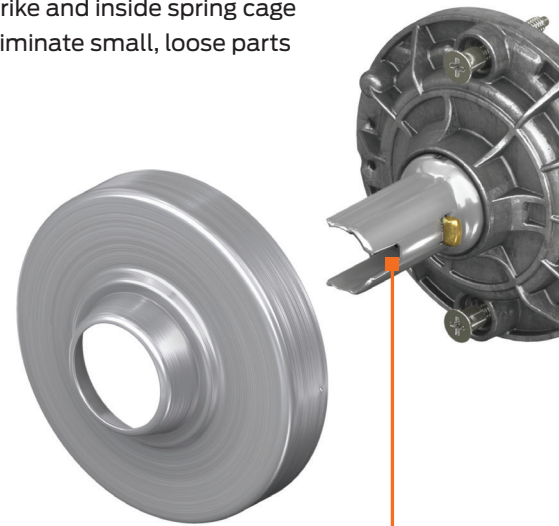

Extra functionality
Field reversible Vandlgard® to non-Vandlgard locked lever engagement

Exceptional durability
- Deep-drawn spindle with 5 points of lever engagement prevents droop and wobble
- Grade 1 compression springs

Next level parts management

The ALX Series gives you the advantage both on the job site and in the warehouse with flexible buying options. In its kitted form, the chassis is purchased separately from function and lever kits which are sold in convenient packs of five. Fewer unique parts means more space in your warehouse. There is also a special locksmith mix pack covering 10, 40, 50 , 53 and 80 functions to help optimize truck stock.

Schlage ALX Series can be purchased as a configured lock...

A detailed look...

Expanded cylinder support
Accepts all Schlage plus five competitive cylinder formats
Maximum utility
One chassis fits all functions and cores to minimize inventory

Function flexibility
Patent pending chassis design allows quick, in-field function set up

Exceeds Grade 2 strength expectations
Stainless steel latchbolt

or as configurable kits for warehouse and jobsite flexibility.
Chassis kits are chosen solely by desired finish. They are shipped non-Vandlgard but can be field-configured for Vandlgard functionality.

Function kits are sold in packs of five defined by function, finish, and latch backset. Locksmith assortment kits are available.

Levers are sold in five packs of same design with inside levers defined by function, finish and design, and outside levers by function/ cylinder, finish and design.

1. Boardwalk, Longitude, Omega, Rhodes, Saturn, Sparta and Tubular levers comply with California State code for return within $\frac{1}{2}$" of door face.

Product information and specifications contained in this catalog are subject to change without notice. Please consult the factory.

Accessibility and life safety

Door hardware should be as effective in helping people go about their lives as it is in securing their environments. The Schlage ALX Series is designed with this requirement in mind.

Accessibility

All Schlage ALX Series levers comply with the Americans with Disabilities Act (ADA), which requires that "Operable parts shall be operable with one hand and shall not require tight grasping, pinching, or twisting of the wrist. The force required to activate operable parts shall be 5 pounds (22.2 N) maximum."

Tactile warning for the visually impaired

Tactile warning is a special texture that can be applied to either lever to alert the visually impaired to a potential hazard on the opposite side of the door (exit to street, a workshop or other hazardous area, etc). Tactile warning is specified by an 8 prefix on the lever design.

Life safety

The Schlage ALX Series is UL listed for use on 3-hour fire doors up to 4'0" x 8'0". The Boardwalk, Longitude, Omega, Rhodes, Saturn, Sparta and Tubular levers levers comply with the California State fire code for return to within $1/2$" of the door face.

Door handing

ALX Series locks can be configured during installation to support any door handing. As a result, it is not necessary to specify handing during the ordering process.

Special functions

Schlage	ANSI	ALX	ND	Function description
25 x 70			■	Classroom exit lock
25 x 80			■	Storeroom exit lock
30	F77		■	Patio lock
45			■	Time out lock
60			■	Vestibule with closed outside lever
70 x 80			■	Classroom by storeroom lock
72	F80		■	Communicating lock

Note: Functions denoted with black dots are also available with Vandlgard. ND Vandlgard functions may have a different order code.

Vandlgard® trim is specifically designed for highly abusive environments. The outside lever rotates freely up and down when locked, limiting the ability of vandals to apply excessive force to the chassis.

How to order

For correct ordering and to help ensure no delays in the shipment of your product, follow the information sequence below.

Example: SCH-ALXV53P-RHO-613-47267051-10-013-T123

Latches

Schlage ALX Series latches accommodate flat or beveled edge doors, and are finished to match the lock trim. All ALX Series latches have $1/2$" throw and 1" housings except the anti-friction fire door latch, which has a $3/4$" throw. Please see the Schlage pricebook for more options including extended backset strikes (up to 5") and rabbited latch and strike kits.

Grade 2, UL 10C listed for 3-hour fire door

	Specify	Backset	Description
Springlatch (Restoring unless noted otherwise)	47267038	2 $3/4$"	Square corner, 1 $1/8$" x 2 $1/4$", standard

Less strike	LLL		
Dust box	K510-066	N/A	Box for ANSI strike, must be specified
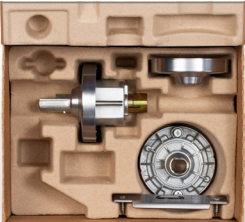

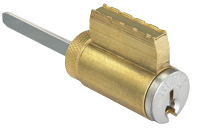

How to order

For correct ordering and to help ensure no delays in the shipment of your product, follow the information sequence below.

Non-keyed functions

1
Order chassis kit
- One chassis kit supports any function requiring a latch
- Order as a part number with finish specified
- Ordered singularly — one per box
- Box is designed to allow you to install function kit components and levers if configured set up is preferred

2
Order function kit
- Individual function kits provide latch, function components, and tailpieces where appropriate (dummy functions are not available kitted)
- Order as a part number defined by function and backset with finish specified
- Special locksmith mix packs available, otherwise kits are ordered as packs of five
- Clear packaging plus markings make it easy to identify function types

3
Order lever packs
- Order as a part number with function/ core, finish, and design specified (available lever designs may be limited by cylinder option)
- Ordered as separate packs of five for inside and outside levers
- Box designed so you can see finish and function/core type plus markings make it easy to identify design

Keyed functions

1
Order chassis kit
- One chassis kit supports any function requiring a latch
- Order as a part number with finish specified
- Ordered singularly — one per box

2
Order function kit
- Individual function kits provide latch, function components and tailpieces where appropriate
- Order as a part number defined by function and backset with finish specified
- Special locksmith mixed packs available, otherwise kits are ordered as packs of five

3
Order lever packs
- Order as a part number with function/core, finish, and design specified (available lever designs may be limited by cylinder option)
- Ordered as separate packs of five for inside and outside levers

4
Order cylinders
- Order separately as cylinders with tailpieces
- Individual tailpiece and tailpiece kit options available (70 function supplied with FSIC and SFIC tailpieces)
- See pages 16 and 17 for details

UL 437 Option
UL listed high-security option available for Primus XP Conventional cylinders

- Hardened steel drill pins
- Proven pick and drill resistant
- Withstands extreme physical attack

Physical Security

COMPARABLE ELECTRONIC SECURITY - Ensure your credential is a secure as your keyway

Proximity credentials	MIFARE Classic® smart credentials	MIFARE Plus® and MIFARE® DESFire® EV1 smart credentials
- Easily duplicated	- Secure encrypted data and communications - Difficult to duplicate	- Advanced data encryption makes duplication nearly impossible - Most secure credentials available from Schlage

1. Limited dealer controlled programs available.
2. FSIC and Conventional in the form of SL cylinders that accept an SFIC key.

Primus® XP access control and high security cylinders

The Primus® XP program is designed to allow the highest levels of security to be applied in buildings on doors where it counts most but still within a single keyway family making it easy to manage. Distribution of both cylinders and keys is tightly controlled and patent protection ensures keys cannot be copied.

Most facilities need higher levels of key control and physical security on at least a few openings. Large businesses with high-risk assets will want to apply the greatest precautions and may opt for end user controlled Primus XP cylinders with keys milled for their exclusive use on a national or regional basis. Mid-size and smaller facilities can gain the same benefits of key control on a more local level by engaging a locksmith who offers dealer exclusive Primus XP products. Buildings keyed to a Classic open keyway can upgrade security to Primus XP at critical points of entry to improve overall security.

Visit us.allegion.com for more information.

Primus XP program enhancements

- Enhanced physical security with patented independent, dual locking mechanisms

- Patent protection and unique key design makes unauthorized duplication nearly impossible

- Geographically exclusive key distribution

- Compatible to all Everest 29 and legacy Everest keyways

- Optional UL 437 listed cylinders are made to withstand extreme attack

Cylinders and key systems

A strong lock is only part of the security solution—proper key control is equally important. Schlage offers extensive options to meet the security needs of the specific project.

Cylinders
Conventional (KIL) and Full Size Interchangeable Core (FSIC) cylinder options[1]

- 6-pin large format keying (standard)
- 7-pin small format keying (A2 pinning) available in SL cylinders
- 6-pin available in Schlage Classic and Everest 29 S and T keyway families plus supported legacy keyways
- Primus XP security features and geographic exclusivity
- Primus XP UL 437 listed high-security cylinders

1   Available in 606, 622, 626 and 643e plug face finishes; Everest 29 S123 keyway standard.
2   Available 606, 613 (simulated), 622, 626 and 643e plug face finishes.
3   Restricted keyway cores require authorization from the end user.

Small Format Interchangeable Core (SFIC) cylinder options[2]

- 7-pin small format keying (A2 pinning)
- Available in Schlage Everest 29 R and legacy, Everest B restricted keyway families[3]

SL format cylinders

- Same A2 pinning style as SFIC cylinders but in Conventional and FSIC formats
- Enables an Everest 29 R or Everest B keyway facility to gain Primus XP program security

Key systems

Everest 29 keyway families

- Patented through 2029
- Key duplication is restricted providing a higher level of administrative security
- Can be integrated into an existing legacy Everest key system
- Upgradeable to Primus XP and UL 437 levels of security

Classic keyway family

- Open keyway—keys are duplicated and available without ordering formalities
- Upgradeable to Primus XP and UL 437 levels of security

Legacy keyway families

- Patent expired keyway families include legacy Everest, Quad, Numbered and Reversed
- Everest and Quad are upgradeable to Primus XP and UL 437 cylinders to regain patent and key control protection for critical points of entry

Options for configured or kitted locks

Cylinder options

Conventional cylinders (Schlage keyways)

When ordering as part of a configured lock, specify cylinder suffix in the product number as directed on page 12. The "L" less cylinder option also requires that you note the desired cylinder part number under the "other requirements" section of the order string. For kitted product orders simply order desired part number(s) as individual line items.

Cylinder suffix	Cylinder with tailpiece	Tailpiece only	Functions	Pins	Cylinder mechanism
P, P6	21-020	A700-031	50, 53, 80	5, 6	Pin and tumbler (standard)
	23-195	47270197	70		
Z	91-018	N523-022	50, 53, 80	7	SL cylinder (restricted Everest 29R or Everest B only)
	91-118	47270197	70		
L	20-765	N523-022	50, 53, 80	6	Primus
	20-685	47270197	70		
L	20-565	N523-022	50, 53, 80	6	Primus UL 437 (UL listed high security)
	20-566	47270197	70		
L	91-718-XP	N523-022	50, 53, 80	7	SL cylinder PrimusXP (restricted Everest 29R or Everest B only)
	91-118-XP	47270197	70		
L	20-765-XP	N523-022	50, 53, 80	6	Primus XP
	20-685-XP	47270197	70		
L	20-565-XP	N523-022	50, 53, 80	6	Primus XP UL 437 (UL listed high security)
	20-566-XP	47270197	70		

Note: Specify plug face finish when ordering as parts: 606, 622, 626 or 643e.

Interchangeable cores (Schlage keyways)

When ordering as part of a configured lock, specify cylinder suffix in the product number as directed on page 10. The "J" less cylinder option also requires that you note the desired cylinder part number under the "other requirements" section of the order string. For kitted product orders simply order desired part number(s) as individual line items.

Cylinder suffix	Cylinder with tailpiece	Tailpiece only	Functions	Pins	Cylinder mechanism
R	23-030	N523-127	50, 53, 80	6	FSIC pin and tumbler (standard FSIC)
		47269168	70		
M	91-161	N523-127	50, 53, 80	7	FSIC Everest SL (restricted Everest 29R and Everest B only)
		47269168	70		
J	20-740	N523-127	50, 53, 80	6	Primus FSIC
		47269168	70		
J	91-861	N523-127	50, 53, 80	7	FSIC SL Primus (restricted Everest 29R and Everest B only)
		47269168	70		
T	23-030-ICX	N523-127	50, 53, 80	6	FSIC refundable construction core - color coded
		47269168	70		
G	80-037	N523-091	50, 53, 80	7	SFIC combinated Everest 29 R family keyway (standard SFIC)
		47269620	70		
H	80-035	N523-091	50, 53, 80	7	SFIC refundable construction core - color coded
		47269620	70		

Note: Specify plug face finish when ordering as parts: 606, 622, 626 or 643e.

Options for configured or kitted locks

Available less cylinder options made to fit competitive cores
When ordering as part of a configured lock, specify cylinder suffix in the product number as directed on page 10.
For kitted product orders simply order desired part number(s) as individual line items.

Cylinder suffix	Tailpiece	Functions	Made to fit
L-SAR	09-060	50, 53, 80	Sargent 10L and 11L, 6-pin KIL
L-CO6	10-140	50, 53, 80	Corbin 2000, 6-pin KIL
J-SAR	09-063	50, 53, 80	Sargent 6300, 6-pin FSIC
J-CO6	09-062	50, 53, 80	Corbin 8000, 6-pin FSIC
J-CO7	10-141	50, 53, 80	Corbin 8000-7, 7-pin FSIC

Multiple tailpiece cylinder kits
Each kit contains a Conventional cylinder with tailpieces to fit any of these series locks: A, AL, ALX, D and ND.

Keyway families	Cylinder mechanism	Part number		Description
Classic, Everest and Everest 29	Standard pin and tumbler	40-100		1 preassembled, 0-bitted Conventional cylinder, 4 tailpieces, 4 key blanks
	Primus	40-700	40-700 XP	1 preassembled, 0-bitted Conventional cylinder, 4 tailpieces
	Primus UL 437	40-500	40-500 XP	

10-piece economy bulk pack cylinders

Keyway families	Cylinder mechanism	Conventional	FSIC	Description
Classic	Standard pin and tumbler	09-409	09-411	Contains 10 each: shells (loaded), plugs, caps, cap pins, cap pin springs, check pins, and check pin springs. FSIC bulk packs also include 10 each: actuating rings, actuating pins, and control pins.
	Primus / Primus XP	09-833	09-753	
Everest and Everest 29	Standard	09-751	09-766	
	Primus / Primus XP	09-764	09-836	

10-piece economy bulk pack tailpieces

Keyway families	Cylinder mechanism	Part number	Description
Classic, Everest and Everest 29	N/A	09-416	10 ND/ALX A700-031 tailpieces

Keyways

Locks are furnished with Everest 29 S123 keyway (KD) unless otherwise specified.

1. Everest 29 and Everest legacy keyway families each have 10 available keyways are always denoted by the letter followed by 3 numbers (example S123).
2. LOA = Letter of Authorization required at time of order.

Product specifications

Schlage ALX Series mechanical specifications		
Chassis	Material	Steel, zinc dichromated for corrosion resistance
	Door thickness	Standard: $1\,^3/_8$" to $1\,^3/_4$"
	Functions	9 available functions with Vandlgard field configurable option on locking functions
	Handing	Non-Handed
Trim	Levers	Standard: 10 designs, pressure cast zinc, plated to match product finish specification Optional: Tactile feature – 　　　　Milled levers: Athens (8AT); Latitude (8LT); Longitude (8LN); 　　　　Rhodes (8RO); and Sparta (8SP). 　　　　Knurled levers: Boardwalk (8BK); Broadway (8BW); and Tubular (8TR)
	Roses	Wrought brass, bronze or zinc plated to match finish specification Standard: $3\,^7/_{16}$" diameter. Blank outside rose is $3\,^1/_2$" diameter
	Finishes	10 available: 605, 606, 612, 613, 619, 622, 625, 626, 626AM, 643e
Latches	Backset	Standard: $2\,^3/_4$" Optional: $2\,^3/_8$", $3\,^3/_4$", 5"
	Faceplate	Standard: $1\,^1/_8$" x $2\,^1/_4$" square corners Optional: Multiple options with square or radius corners (see page 11 for details)
	Bolt	Standard: $^7/_8$" bolt diameter, up to 1" housing diameter, $^1/_2$" throw in Stainless Steel Optional: 1" bolt diameter with $^1/_2$" throw, $^3/_4$" anti-friction fire latch
	Strike	Standard: ANSI Curved Lip: $1\,^1/_4$" x $4\,^7/_8$" x $1\,^3/_{16}$" Optional: T strike (see page 11 for details)
Cylinders	Format	Standard: Conventional 6-pin in solid brass Optional: Full size and small format IC cylinders
	SL option	7-pin Conventional and FSIC format cylinders using small format A2 pinning that share SFIC cylinder's Everest 29R restricted keyway
	Construction options	Conventional: Cylinders can be ordered as "construction" and will be shipped with a split key and separately packaged change keys FSIC and SFIC: Cylinders can be purchased as returnable/refundable cylinders and SFIC is also offered as a disposable cylinder
	Less cylinder	Options to fit Schlage Primus and 5 competitive cylinders
Keying	Keyway	Standard: Everest 29 S123 patented open keyway, keyed different (KD) Optional: Classic open, Everest 29 restricted, and legacy keyways
	Enhanced security options	Primus XP program and factory master keying
Warranty		10 year limited
Certifications	ANSI/BHMA	Certified A156.2-2011 Series 4000, Grade 2; exceeds standard for lever and spindle strength and durability
	ICC	Complies with ICC A117.1 for Accessible and Usable Buildings and Facilities
	UL/cUL	All locks listed for A label single fire door 4' x 8' or 4' x 10' 3-hour; pair doors 8' x 8' 3-hour; and 8' x 10' 90-minute. Letter F and UL symbol on latch front indicate listing.
	UL 437	Optional UL listed high-security cylinders available in Conventional format
	CA Fire Code	All levers with a return to door of $^1/_2$" (64 mm) or less comply (Boardwalk, Longitude, Omega, Rhodes, Saturn, Sparta, and Tubular)
	FL Building Code	ASTM E330, E1886, E1996 and Miami Dade (TAS 201, 202, 203) requirements for hurricanes
	Federal	Meets FF-H-106C Series 161
	ADA compliant	All lever designs meet Americans with Disabilities Act requirements

Architectural specifications

Architectural specifications

A. Requirements:
1. Provide Schlage ALX Series cylindrical locks conforming to the following standards and requirements:
    a. ANSI/BHMA A156.2 Series 4000, Grade 2.
    b. UL 10C listed for 4' x 8' 3-hour fire door.
    c. **OPTION** – UL 10C for 4' x 10' 3-hour fire door.
    d. **OPTION** – UL 10C for 8' x 8' 3-hour fire door.
    e. **OPTION** – UL 10C for 8' x 10' 90-minute fire door.
    f. **OPTION** – Florida Building Code (ASTM E330, E1886, E1996) and Miami Dade (TAS 201, 202, 203) requirements for hurricanes.
2. Provide cylindrical locks exceeding the ANSI/BHMA A156.2 Grade 1 performance standards for strength and durability in the categories below:
    a. **Cycle life** – minimum of 1.0 million cycles:
        1) With no visible lever sag.
        2) Without the use of performance aids (e.g. set screws, spacers, etc.)
    b. **Abusive locked lever torque** – minimum of 1,000 inch-pounds without gaining access.
3. Provide locksets with **solid cast levers** and **wrought roses** on both sides:
    a. Lever design: Athens, Broadway, Boardwalk, Latitude, Longitude, Omega, Rhodes, Saturn, Sparta or Tubular.
    b. Rose design: Rhodes (all levers except Omega) or Omega (only with Omega lever).
    c. **OPTION** (where required by Authority Having Jurisdiction) – Provide tactile warning (knurling) on levers for either side of the door for areas considered to be hazardous.
    d. **OPTION** – Provide either Vandlgard or non-Vandlgard exterior levers on any locking function without use of extra components.

4. Provide locks with standard 2 $^3/_4$" (70 mm) backset, unless noted otherwise, with $^1/_2$" latch throw. Provide $^3/_4$" latch throw for UL listing at pairs.
5. **OPTION** – Provide latch options featuring a 2 $^3/_8$" and 3 $^3/_4$" backset with a $^1/_2$" latch throw.
6. Provide locksets with **solid steel anti-rotation** through bolts and posts to control excessive lever rotation.
7. Provide **independently operating levers** with two external return spring cassettes mounted under roses to prevent lever sag.
8. Provide a minimum of **5 points of lever engagement** between the cassette spindle and lever shank to prevent lever sag.
9. Provide standard ASA strikes unless extended lip strikes are required to protect trim.
10. **OPTION** – Provide RX functionality on any latched function.
11. **OPTION** – Plug-n-Play. Provide modular lockset allowing lock functions to be created for 7 typical functions by inserting/installing parts into the exterior of a fully assembled chassis.
12. **OPTION** – Reconfigurable chassis. Provide modular lockset that allows the function to be reconfigured by removing external trim and performing a simple function component replacement.
